CHAPTER 338

WEIGHTS AND MEASURES

LIST OF AUTHORISED PAGES

1 - 23 LRO 1/2008

ARRANGEMENT OF SECTIONS

SECTION

PART I - PRELIMINARY

1. Short title.
2. Interpretation.
3. Administration

PART II - UNITS AND STANDARDS OF MEASUREMENT

4. Units of measurement.
6. Working standards and testing and stamping equipment.

PART III - WEIGHING AND MEASURING EQUIPMENT

7. Weighing and measuring equipment used for trade.
8. Testing of weighing or measuring equipment on request.
9. Approval of patterns of weighing or measuring equipment.
10. General testing of weighing and measuring equipment.
11. Units of measurement lawful for use for trade.
12. Sale of goods by weight or measurement.
13. Sale of pre-packed goods by weight or measurement.
14. Seller to weigh or measure goods in buyer’s presence if requested.
15. Short weight, etc.
PART IV - INSPECTORS OF WEIGHTS AND MEASURES

17. Appointment of inspectors.
19. Directions to secure compliance.
20. Inspectors may act as arbitrators etc.
21. Inspectors may make tests and reports on request.
22. Inspectors to account for fees.

PART V - MISCELLANEOUS

23. Regulations.
24. Offences.
25. Evidence of possession of equipment.
26. Offences by corporations or associations.
27. Defence of mistake, accident, etc.
28. Evidence of facts certified.

FIRST SCHEDULE (Section 4)
UNITS OF MEASUREMENT
SECOND SCHEDULE (Section 5)
MEASURES AND WEIGHTS
CHAPTER 338

WEIGHTS AND MEASURES

An Act to provide for the regulation of weights and measures.

[Assent 6th February 2006]

PART I PRELIMINARY

1. This Act may be cited as the Weights and Measures Act. Short title.

2. In this Act —

   “Bureau” means the Bureau of Standards established by section 3 of the Standards Act;

   “container” includes any form of packaging of goods for sale as a single item, whether by way of wholly or partly enclosing the goods or by way of attaching the goods to or winding the goods round some other article and in particular includes a wrapper or confining band;

   “inspector” means a person appointed as an inspector of weights and measures under section 17 of this Act;

   “mark” includes label;

   “Minister” means the Minister responsible for the Bureau of Standards;

   “occupier” in relation to any stall, vehicle, vessel or aircraft or in relation to the use of any place for any purpose, means the person for the time being in charge of the stall, vehicle, vessel or aircraft or, as the case may be, the person for the time being using that place for that purpose;

   “premises” includes any place and any stall, vehicle, vessel or aircraft;
“pre-packed” means made up in advance ready for 
retail sale in or on a container; and on any 
premises where articles of any description are so 
made up, or are kept or stored for sale after being 
so made up, any articles of that description found 
made up in or on a container shall be deemed to 
be pre-packed unless the contrary is proved; and 
it shall not be sufficient proof of the contrary to 
show that the container has not been marked in 
accordance with the requirements of this Act or 
of any regulations made thereunder;

“stamp” means a mark for use as evidence of the 
passing of weighing or measuring equipment as 
fit for use for trade, whether applied by 
impressing, casting, engraving, etching, branding, 
transfer or by any other means;

“trade” includes any transaction for the transferring or 
rendering of money or money’s worth in 
consideration of money or money’s worth;

“weighing or measuring equipment” means equipment 
for measuring in terms of length, area, volume, 
capacity, weight, or number, whether or not the 
equipment is constructed to give an indication of 
the measurement made or other information 
determined by reference to that measurement.

3. The Bureau shall be responsible for the 
administration of the Weights and Measures Act.

PART II - UNITS AND STANDARDS OF 
MEASUREMENT

4. (1) The yard or the metre shall be the unit of 
measurement of length, the pound or the kilogram shall be 
the unit of measurement of mass and the gallon or litre 
shall be the unit of measurement of capacity by reference 
to which any measurement involving a measurement of 
length, mass or capacity shall be made in The Bahamas;

(a) the yard shall be 0.9144 metre exactly;

(b) the pound shall be 0.453 592 37 kilogram 
   exactly; and

(c) the gallon shall be 4.546 09 litres exactly.
(2) The First Schedule shall have effect for defining
for the purposes of measurements falling to be made in The
Bahamas the units of measurements set out in that
Schedule; and for the purposes of any measurement of
weight falling to be so made, the weight of anything may
be expressed, by reference to the units of measurement set
out in Part V of that Schedule, in the same terms as its
mass.

(3) The Minister may from time to time by order
amend the First Schedule by adding to or removing from it
any unit of measurement.

5. (1) The Minister shall cause to be maintained, in
accordance with the provisions of this section, standards
which shall be known collectively as the Bahamian
reference standards.

(2) The Bahamian reference standards shall consist
of such of the measures and weights set out in the Second
Schedule as the Minister considers to be proper and
sufficient and a reference standard of any linear or capacity
measure may, as the Minister thinks fit —

(a) be provided either as a separate standard or by
means of divisions marked on a standard of larger
measure; and

(b) either be marked in whole or in part with
subdivisions representing any smaller unit of
measurement or multiples or fractions of such a
unit or have no such marking.

(3) The Bahamian reference standards shall be
deposited at such places and shall be placed in the custody
of such persons as the Minister shall direct.

(4) Before being brought into use each Bahamian
reference standard shall be calibrated.

(5) The value of each Bahamian reference standard
shall, at intervals not exceeding seven years, be re-
determined in such manner as the Minister shall direct.

(6) Where it is proposed to send any Bahamian
reference standard out of The Bahamas temporarily, the
Minister shall cause to be provided, as a temporary
reference standard, an appropriate measure or weight of the
denomination of that Bahamian reference standard and
shall by order declare that measure or weight to be a
temporary Bahamian reference standard.
(7) The Minister may from time to time by order amend the Second Schedule by adding to it or removing from it any measure or weight.

(8) The Minister may give consideration, acting on the advice of the Bureau, to the adoption for use in The Bahamas of any relevant recommendation or standards issued by the International Organisation of Legal Metrology (OLML).

6. (1) The Bureau shall provide for use by inspectors, and shall maintain or from time to time replace, such standards (in this Act referred to as working standards) of such of the measures and weights set out in the Second Schedule, such testing equipment, and such stamping equipment, as the Bureau may from time to time approve or require as being proper and sufficient for the efficient discharge by inspectors of their functions under this Act.

(2) Working standards and testing and stamping equipment provided under this section shall be of the material and form approved by the Bureau and, except so far as may be necessary for the purpose of their use elsewhere, shall be kept under such control as the Bureau may from time to time direct or approve and a working standard of a linear, cubic or capacity measure may —

(a) be provided either as a separate standard or by means of divisions marked on a standard of a larger measure; and

(b) either be marked in whole or in part with subdivisions representing any smaller unit of measurement or multiples or fractions of such a unit or have no such markings.

(3) Working standards shall from time to time be tested by comparison with Bahamian reference standards or other working standards more recently tested and shall, if necessary, be adjusted to within such limits of error as may be prescribed.

(4) Testing equipment provided under subsection (1) shall be tested and adjusted in accordance with such provisions as may be prescribed.
PART III - WEIGHING AND MEASURING EQUIPMENT

7. For the purposes of this Act, any weighing or measuring equipment used in —
   (a) determining the weight, measurement or number of goods supplied, or acquired by way of trade on the basis of weight, measurement or number;
   (b) computing the payment for work or services rendered or for any toll or duty charged on the basis of weight, measurement or number;
   (c) determining weight or measurement upon payment of money; or
   (d) grading agricultural produce by reference to weight or measure, for the purpose of trade,

shall be deemed to be in use for trade.

8. (1) Any person wishing to have any weighing or measuring equipment passed as fit for use for trade shall submit the equipment to an inspector in such manner as the Bureau may direct and subject to the provisions of this Act and of any regulations made thereunder and after payment by that person of such fee, if any, as may be prescribed, the inspector shall —
   (a) test the equipment by means of such standards and testing equipment as he considers appropriate or, subject to any conditions which may be prescribed, by means of other equipment which has already been tested and which the inspector considers suitable for the purpose;
   (b) if the equipment submitted falls within the prescribed limits of error and satisfies the requirements of this Act and of any regulations made thereunder, give to the person submitting it a statement in writing to the effect that it is passed as aforesaid; and
   (c) keep a record of the test.

(2) Any person who forges, alters or defaces a statement in writing referred to in paragraph (b) of subsection (1) shall be guilty of an offence.
9. (1) Any person wishing to ascertain whether any pattern of weighing or measuring equipment is suitable for use for trade may, in such manner as may be prescribed, submit that pattern to the Bureau for examination.

(2) Where any pattern of weighing or measuring equipment is submitted to the Bureau pursuant to subsection (1) the Bureau shall, on payment of such fee, if any, as may be prescribed, examine the suitability for use for trade of equipment of that pattern, having regard in particular to the principle, materials and methods used or to be used in its construction, and if the Bureau is satisfied that equipment of that pattern is suitable for use for trade, it shall issue a certificate of approval of that pattern and cause notice of the approval to be published in the Gazette.

(3) The Bureau may from time to time authorize such minor modifications as it thinks fit of any pattern of weighing or measuring equipment in respect of which a certificate of approval has been granted under this section, and shall cause notice of any modifications authorized by it to be published in the Gazette.

(4) A certificate of approval may contain a condition that equipment of the pattern in respect of which that certificate is granted shall be used for trade in only such place, for only such period or for only such purpose, as is specified in the certificate.

(5) The Bureau may at any time revoke any certificate of approval granted under this section and shall cause notice of the revocation of any certificate of approval to be published in the Gazette.

(6) Any equipment of a pattern in respect of which a certificate of approval has been granted under this section may, and in such cases as may be prescribed shall, be marked in the prescribed manner so as to identify it with the pattern to which the certificate relates.

(7) Notwithstanding subsection (1), a Metrological Report or Certificate on the Pattern from a Metrological authority at the exporting country attesting to the suitability of equipment for use in Trade shall be accepted by the Bureau as proof of suitability of that equipment.

10. (1) The Bureau may designate any appointed inspector to regularly visit any district, settlement or town in The Bahamas to inspect and test weighing and
measuring equipment used for trade in that district, settlement or town.

(2) An inspector designated under subsection (1) —
(a) may enter any premises in which he reasonably believes any weighing or measuring equipment is kept to be sold or used for trade;
(b) may request any person in the premises to produce for inspection and testing any weighing or measuring equipment in the custody of that person for sale or for use for trade; and
(c) may exercise any other power, and shall perform any other duty, conferred or imposed by section 18 on an inspector.

(3) Any person to whom a request is made pursuant to paragraph (c) of subsection (2) shall submit to the inspector, for inspection and testing, all weighing and measuring equipment in his custody.

(4) Where any weighing or measuring equipment is submitted to an inspector for testing, the inspector shall —
(a) test the equipment by means of such working standards and testing equipment as he considers appropriate or, subject to any conditions which may be prescribed, by means of other equipment which has already been tested and which the inspector considers suitable for the purpose;
(b) if the equipment submitted falls within the prescribed limits of error, give to the person submitting it a statement in writing to the effect that it is passed as fit to be used for trade;
(c) except as otherwise expressly provided by or under this Act, cause the equipment to be stamped with the prescribed stamp; and
(d) keep a record of the test.

(5) No weight or measure shall be —
(a) stamped as mentioned in paragraph (c) of subsection (4) unless it has been marked in the prescribed manner with its purported value;
(b) stamped or marked if it is too small to be stamped or marked.
(6) Any person who without reasonable cause fails to comply with any requirement properly made of him by an inspector under this section shall be guilty of an offence.

11. (1) No person shall use for trade any unit of measurement which is not included in the First Schedule.

(2) No person shall use the carat (metric) for trade except for the purposes of transactions in precious stones or pearls, and no person shall use the ounce troy for trade except for the purposes of transactions in, or in articles made from gold, silver or other precious metals including transactions in gold or silver thread, lace or fringe.

(3) Any person who contravenes any of the provisions of this section shall, subject to subsection (4), be guilty of an offence, and any measure or weight used, or in any person’s possession for use, in contravention of any of those provisions shall be liable to be forfeited.

(4) This section shall not apply to any transaction in connection with the export of goods to a country where a system of units of measurement other than those authorized by this Act is used for trade.

12. (1) No person shall sell any goods by weight or measurement unless he does so by net weight or measurement.

(2) Any person who sells any goods by weight or measurement expressed in metric units shall, if the purchaser so requires, inform him of the correct equivalent of the weight or measurement in imperial units while imperial units are lawfully in use in The Bahamas.

(3) The Minister may, on advice from the Bureau, by order published in the Gazette abolish the imperial calibration system.

13. (1) Subject to such exemptions as may be prescribed, no person shall sell any pre-packed goods by weight or measurement unless the net weight or the capacity measurement of those goods is marked on the container in the prescribed manner by reference to a unit of measurement included in the First Schedule.

(2) Subject to the provisions of this Act, no person shall supply by way of trade any goods in a container marked with any unit of weight or measurement differing in name or size from the appropriate units specified in the First Schedule unless its correct equivalent in units of
weight or measurement so specified are also marked on that container —

(a) not less conspicuously than the unit of weight or measurement first mentioned; or

(b) in the prescribed manner.

(3) No person shall use a non-specified container after a pre-fixed date.

(4) Any person contravening subsections (1), (2) and (3) shall be guilty of an offence.

14. (1) Any person selling by weight or measurement any goods, other than pre-packed goods which satisfy the requirements of section 13, shall weigh or measure the goods in the presence of the buyer if requested by the buyer, and including any other matter that may facilitate the implementation of the Act.

(2) Any person who contravenes subsection (1) shall be guilty of an offence.

15. Any person who, in selling or purporting to sell any goods by weight or other measurement or by number, delivers or causes to be delivered to the buyer a lesser quantity than that purported to be supplied or than corresponds with the price charged shall be guilty of an offence.

16. Any person who supplies by way of trade goods in or on a container which is so made, formed or filled as to be misleading as to the nature or quantity of the contents shall be guilty of an offence.

PART IV - INSPECTORS OF WEIGHTS AND MEASURES

17. (1) The Minister may, on the advice of the Bureau, appoint one or more inspectors of weights and measures.

(2) Every inspector shall be furnished with a certificate of appointment in the prescribed form.

18. (1) An inspector may at any reasonable time enter any premises in which he reasonably believes any goods are bought or sold or any weighing or measuring equipment is kept to be used for trade and may, in those premises —
(a) inspect and test any weighing or measuring equipment therein;

(b) examine and test any goods therein and where necessary break open any container of those goods;

(c) require the production of all books, accounts or documents relating to goods therein and inspect and copy any of those books, accounts or documents;

(d) take such samples of any goods therein as may be reasonably required by him for the proper performance of his duties;

(e) make such other examination and enquiry as may be necessary to ascertain whether the provisions of this Act or any regulations made thereunder have been or are being complied with;

(f) require any person in possession or control of any goods therein to render such explanations and give such information relating to those goods as may be reasonably required;

(g) seize, remove and detain any weighing or measuring equipment, goods, book, account, document, or other thing which he has reasonable cause to believe will afford evidence of an offence against this Act or any regulations made thereunder; and

(h) make, on behalf of the Bureau, such purchases of goods as may appear expedient for the purpose of determining whether or not the provisions of this Act or any regulations made thereunder are being complied with.

(2) An inspector exercising or attempting to exercise his powers under this section shall produce his certificate of appointment to the person in charge of the premises.

(3) An inspector entering any premises pursuant to this section may take with him such other person and such equipment as may appear to him necessary.

(4) Before removing any article under the provisions of paragraph (g) of subsection (1) the inspector removing it shall furnish that person with a written receipt therefor.

(5) Any person who —
(a) obstructs or hinders an inspector exercising his powers under this section;
(b) fails to comply with any requirement properly made of him by an inspector under this section; or
(c) gives to that inspector information which he knows or ought to know to be false or misleading,
shall be guilty of an offence.

(6) Nothing in this section shall be construed as requiring a person to answer any question or give any information if to do so might incriminate him.

19. (1) An inspector may give to any person who has, for use for trade —
(a) any weighing or measuring equipment; or
(b) any package or label or any other article of whatever kind,
which does not comply with the provisions of this Act or of any regulations made thereunder, directions in writing requiring him to take such steps as shall be specified in those directions to secure compliance with those provisions.

(2) Any person aggrieved by any directions given pursuant to subsection (1) may appeal in writing to the Bureau within seven days after the date on which those directions were given, and the Bureau may confirm, revoke or amend those directions.

(3) Subject to the provisions of subsection (2) any person who fails to comply with directions given pursuant to subsection (1) shall be guilty of an offence.

(4) Nothing in this section shall be construed to affect any proceedings which may be taken for failure to comply, as respects anything referred to in paragraph (a) or (b) of subsection (1), with the provisions of this Act or any regulations made thereunder.

20. (1) In any civil proceedings relating to the supply of goods and services, the court may, subject to any rules of court, and with the agreement of the Bureau, require an inspector to act as arbitrator, assessor or referee, or to carry out any inspection, survey, measurement or weighing, or to take any samples, or to make any observation, plan or model, or to try any experiment.
(2) In any dispute relating to the supply of goods and services, the parties to such dispute may request the Bureau to nominate an inspector to act as arbitrator or umpire within the meaning of the Arbitration Act, and for this purpose the Bureau may nominate such inspector as it thinks fit.

21. An inspector may, at the request of any person and subject to the payment by that person of such fee, if any, as may be prescribed, carry out and submit to that person a report on —

(a) a weighing or other measurement of any goods submitted for the purpose by that person at such place as the Bureau may direct or approve; or

(b) a test of the accuracy of any weighing or measuring equipment so submitted.

22. Every inspector shall account for and promptly pay over to the Bureau all fees taken by him under this Act.

PART V - MISCELLANEOUS

23. (1) The Minister may, after consultation with the Bureau, make regulations —

(a) with respect to —

   (i) the materials and principles of construction of weighing or measuring equipment for use for trade;

   (ii) the purposes for which particular types of weighing or measuring equipment may be used for trade;

   (iii) the manner of erection, sitting or use of weighing or measuring equipment used for trade;

   (iv) the circumstances in which, conditions under which and manner in which stamps may be obliterated or defaced;

   (v) the abbreviations of or symbols for units of measurement which may be used for trade;

(b) with respect to the inspection, testing and passing of any weighing or measuring equipment used for the purpose of, or in connection with, the
computation of tolls, rates, taxes, charges or payments of any kind;

(c) with respect to the inspection, testing, passing as fit for use for trade and stamping or authentication of weighing or measuring equipment, including —

(i) the prohibition of the stamping or authentication of such equipment in such circumstances as may be specified in the regulations;

(ii) the circumstances in which an inspector may remove or detain any weighing or measuring equipment for inspection or testing;

(iii) the marking of any weighing or measuring equipment found unfit for use for trade;

(d) restricting or controlling the importation, manufacture, repairing or sale of any weighing or measuring equipment designed to be used for trade and providing for the issuing of licences for such importation, manufacture, repairing or sale;

(e) to prohibit the use for trade of any pattern of weighing or measuring equipment specified in the regulations unless a certificate of approval is granted in respect of that pattern;

(f) requiring that weighing or measuring equipment of any type described in the regulations shall be tested and passed by an inspector before that equipment is sold or is used for trade;

(g) prescribing what unit of measurement may be treated, for use for trade, as the equivalent of or of any multiple or fraction of, any unit of measurement included in the First Schedule;

(h) to prohibit the sale of any goods specified in the regulations except —

(i) by weight or measurement or number expressed in such manner as may be so specified; or

(ii) in such quantities as may be so specified;

(i) prescribing any matter or anything which may be, or is required by this Act to be, prescribed.
(2) Regulations made under this Act may contain—
(a) different provisions for different types of weighing or measuring equipment and for different classes or descriptions of goods;
(b) exemptions from any of the provisions of those regulations.

Offences.

24. (1) Any person who uses for trade, or has in his possession for use for trade, any weighing or measuring equipment which is false or unjust shall be guilty of an offence and the equipment shall be liable to be forfeited.

(2) If any fraud is committed in the using of any weighing or measuring equipment for trade, the person committing the fraud and any person who is party thereto shall be guilty of an offence and the equipment shall be liable to be forfeited.

(3) Any person who uses for trade or has in his possession for use for trade—
(a) any weight or any linear, square, cubic or capacity measure which is not included in the Second Schedule; or
(b) any weighing or measuring instrument constructed to indicate in terms of some weight or measure which is not included in the First Schedule,
shall be guilty of an offence and the weight, measure or measuring instrument, as the case may be, shall be liable to be forfeited.

(4) Any person who supplies to any other person for use for trade any weighing or measuring equipment—
(a) which is false or unjust; or
(b) which does not comply with any requirement of this Act or of any regulations made thereunder,
shall be guilty of an offence.

(5) Any person guilty of an offence under this Act shall be liable on summary conviction to a fine not exceeding two thousand dollars and in default of payment to imprisonment for a term not exceeding twelve months and, in the case of a continuing offence, to a further fine not exceeding one hundred dollars for every day on which the offence continues after conviction.
25. Where any weighing or measuring equipment is found in the possession of any person carrying on trade or on any premises which are used for trade, that person or, as the case may be, the occupier of those premises shall be deemed for the purposes of this Act, or of any regulations made thereunder, unless the contrary is proved, to have that equipment in his possession for use for trade.

26. Where an offence under this Act or under any regulations made thereunder which has been committed by a corporate body or by any association of persons (whether incorporated or not) is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer of that body or association or any person who was purporting to act in any such capacity, he as well as that body or association shall be liable to be prosecuted and punished accordingly.

27. In any proceedings for an offence under this Act or under any regulations made thereunder, it shall be a defence for the person charged to prove —

(a) that the commission of the offence was due to a mistake, or to an accident or some other cause beyond his control; and

(b) that he took all reasonable precautions and exercised all due diligence to avoid the commission of such an offence by himself or any person under his control.

28. A document purporting to be signed by an inspector and certifying —

(a) that any weighing or measuring equipment specified therein was inspected and tested by him on a date specified therein, and the result of the inspection and test; or

(b) that any goods specified therein were weighed, measured or counted by him on a date specified therein and were found to be of a weight, measurement or number specified therein,

shall, upon production thereof in evidence in any proceedings, be evidence of the facts certified therein and in the absence of evidence in rebuttal thereof shall be conclusive evidence of those facts.
FIRST SCHEDULE (Section 4)

Units of Measurement

PART I

MEASUREMENT OF LENGTH

Imperial Units -
- Mile = 1,760 yards
- furlong = 220 yards
- Chain = 22 yards
- Yard = 0.9144 metre
- foot = 1/3 yard
- Inch = 1/36 yard

Metric Units
- Kilometre = 1000 metres
- METRE = is the length of the path travelled by light in vacuum during a time interval of 1/299 792 458 of a second.
- Decimetre = 1/10 metre
- Centimetre = 1/100 metre
- Millimetre = 1/1000 metre

PART II

MEASUREMENT OF AREA

Imperial Units
- Square mile = 640 acres
- Acre = 4,840 square yards
- Rood = 1,210 square yards
- Square yard = a superficial area equal to that of a square each side of which measures one yard
- Square foot = 1/9 square yard
- Square inch = 1/144 square foot

Metric Units
- Hectare = 100 ares
- Decare = 10 ares
- Are = 100 square metres
- Square metre = a superficial area equal to that of a square each side of which measures one metre
- Square decimetre = 1/100 square metre
- Square centimetre = 1/100 square decimetre
- Square millimetre = 1/100 square centimetre
PART III

MEASUREMENT OF VOLUME

Imperial Units
- Cubic yard = a volume equal to that of a cube each edge of which measures one yard
- Cubic foot = 1/27 cubic yard
- Cubic inch = 1/1728 cubic foot

Metric Units
- Cubic metre = a volume equal to that of a cube each edge of which measures one metre
- Cubic decimetre = 1/1000 cubic metre
- Cubic centimetre = 1/1000 cubic decimetre
- Hectolitre = 100 litres
- LITRE = a cubic decimetre
- Decilitre = 1/10 litre
- Centilitre = 1/100 litre
- Millilitre = 1/1000 litre

PART IV

MEASUREMENT OF CAPACITY

Imperial Units
- Gallon = 4.546 09 cubic decimetre
- Quart = 1/4 gallon
- Pint = 1/2 quart
- Gill = 1/4 pint
- Fluid ounce = 1/20 pint

Metric Units
- Hectolitre = 100 litres
- LITRE = a cubic decimetre
- Decilitre = 1/10 litre
- Centilitre = 1/100 litre
- Millilitre = 1/1000 litre

PART V

MEASUREMENT OF MASS OR WEIGHT

Imperial Units
- Ton = 2,240 pounds
- Short ton = 2,000 pounds
- Hundred-weight = 112 pounds
- Cental (or short hundred-weight) = 100 pounds
- Quarter = 28 pounds
- Stone = 14 pounds
- Pound = 0.453 592 37 kilogram
- Ounce = 1/16 pound
- Dram = 1/16 pound
- Grain = 1/7000 pound
- Ounce troy = 12/175 grains

Metric Units
### PART VI

**MEASUREMENT OF ELECTRICITY**

1. (a) **AMPERE** is that constant current which, if maintained in two straight parallel conductors of infinite length, of negligible circular cross-section and placed 1 metre apart in vacuum, would produce between these conductors a force equal to $2 \times 10^{-7}$ newton per metre of length.

   (b) **OHM** is the electric resistance between two points of a conductor when a constant potential difference of 1 volt, applied between the two points, produces in the conductor a current of 1 ampere, the conductor not being the seat of any electromotive force.

   (c) **VOLT** is the difference of electric potential between two points of a conducting wire carrying a constant current of 1 ampere when the power dissipated between these points is equal to 1 watt.

   (d) **WATT** is the power which in one second gives rise to energy of 1 joule.

2. Kilowatt = 1000 watts  
   Megawatt = one million watts

### PART VII

**MEASUREMENT OF SOLID FUEL**

SECOND SCHEDULE (Section 5)

MEASURES AND WEIGHTS

PART I

LINEAR MEASURES

Imperial system
1. Measures of -
   100 feet  5 feet
   66 feet  4 feet
   50 feet  1 yard
   33 feet  2 feet
   20 feet  1 foot
   10 feet  6 inches
   8 feet  1 inch
   6 feet

Metric system
2. Measures of -
   50 metres  2 metres
   30 metres  1.5 metres
   20 metres  1 metre
   10 metres  0.5 metre
   5 metres  1 decimetre
   3 metres  1 centimetre

PART II

SQUARE MEASURES

Imperial system
1. Measures of, or of any multiple of, 1 square foot.

Metric system
2. Measures of, or of any multiple of, 1 square decimetre.

PART III

CUBIC MEASURES

Imperial system
1. Measures of any multiple of 1/4 cubic yard and 1 cubic foot.

Metric system
2. Measures of, or of any multiple of, 0.1 cubic metre.
3. Measures of —
   any multiple of 10 litres
   10 litres  100 millilitres
   5 litres  50 millilitres
   2.5 litres  25 millilitres
   2 litres  20 millilitres
   1 litre  10 millilitres
   500 millilitres  5 millilitres
   250 millilitres  2 millilitres
   200 millilitres  1 millilitre
### PART IV

**CAPACITY MEASURES**

**Imperial system**

1. Measures of —
   - any multiple of 1 gallon:
     - 1 gallon: 1 gill
     - 1/2 gallon: 4 fluid ounces
     - 1 quart: 1/2 gill
     - 1 pint: 2/15 gill
     - 1/2 pint: 1/3 gill
     - 8 fluid ounces: 1/4 gill
     - 1/3 pint: 1/5 gill
     - 6 fluid ounces: 1/6 gill

**Metric system**

2. Measures of —
   - any multiple of 10 litres:
     - 10 litres: 125 millilitres
     - 5 litres: 100 millilitres
     - 2.5 litres: 50 millilitres
     - 2 litres: 25 millilitres
     - 1 litre: 20 millilitres
     - 500 millilitres: 10 millilitres
     - 250 millilitres: 5 millilitres
     - 200 millilitres: 2 millilitres
     - 175 millilitres: 1.5 millilitres
     - 150 millilitres

### PART V

**WEIGHTS**

**Imperial System**

1. Weights of —
   - 56 pounds: any of the following
   - 50 pounds: or fractions of
   - 28 pounds: that is to say —
   - 20 pounds: 100
   - 14 pounds: 50
   - 10 pounds: 30
   - 7 pounds: 20
   - 5 pounds: 10
   - 4 pounds: 5
   - 2 pounds: 3
   - 1 pound: 2
   - 8 ounces: 1
   - 4 ounces: 0.5
   - 2 ounces: 0.3
   - 1 ounce: 0.2
   - 1/2 ounce: 0.1
   - 1/4 ounce: 0.05
   - 1/8 ounce: 0.03
   - 1/16 ounce: 0.02
   - 1/32 ounce: 0.01

2. Weights of —
